Digital Cultural Heritage**

Innovating Digital Cultural Heritage in Bulgaria

Launch of the translation of the book *Open a GLAM Lab in Bulgarian*

Web event, 11 May, 11.00-13.00 EEST

The e-Infrastructures CLaDA-BG and UNITe and the project DISTILL are pleased to invite you to the launch of the translation of the book “Open a GLAM Lab” in Bulgarian published by the Publishing House of the BAS Prof. Marin Drinov. The acronym GLAM brings together the institutions from the cultural and scientific heritage sectors – galleries, libraries, archives and museums.

GLAM Labs are indispensable innovation drivers in the cultural and scientific heritage sectors. They help to introduce and use big heritage data. In Bulgaria, CLaDA-BG and UNITe are among the pioneers in addressing the challenges of creating, using and preserving ‘big’ digital collections and datasets.

We will celebrate the book launch with this event, which starts a series of conversations about the innovation in Bulgaria's digital cultural heritage sectors. We invite scholars, students and professional from the cultural and scientific heritage sector to join us.

The webinar will have two parts, one in English and one in Bulgarian.

for information: m.dobreva@fmi.uni-soa.bg
